and  
the Publication  
Process

The Future of  
Peer Review

Enhancing  
Your Peer Review  
Effectiveness

Essential Points  
to Remember as  
a Peer Reviewer

**Alex Potocki (MS):** Mr. Potocki has undergraduate and graduate degrees in biomedical engineering from universities in the United States. His areas of expertise include bioinstrumentation, receptor biology, anatomy and physiology, and microscopy. He has nearly 10 years of experience helping non-native English speaking scientists publish their research in international journals. He also has several years of experience working in the editorial office of a leading neuroscience journal.
