Access

Why Exhibit?

The Largest Meeting on Geoscience in Japan

The JpGU Meeting is the largest meeting on geoscience in Japan. 7968 people including international attendees from 39 countries and regions attended the 2018 Meeting.

Synergistic Effect

Academic presentations by researchers and exhibition are at same venue, same term. Participants of presentations can drop-by exhibition area with no effort.

New Customers and Network

Because more than 240 sessions cover all the areas of Geoscience, lots of researchers on each field participate. You may meet new customers, and may create and expand your communication network. This is the greatest advantage in participating Japan Geoscience "Union" Meeting.
