5. Preparing for Presentations

a. Oral presentations

- During the hybrid phase, Zoom will be used to broadcast the on-site oral presentation sessions. For oral presentations, presentations can be made on-site or online via Zoom webcast to allow for presentations and participations in both ways.
- **On-site**
 - 【Principle】 Please give your presentation using a PC (Windows 11) provided in each presentation room. Please prepare your presentation materials in PowerPoint or pdf format and bring them on a USB (There will be no upload system for on-site oral presentation material).
 - You can present on your own PC as long as it has HDMI connectivity. Even then, we recommend that you bring your presentation files on a USB in case of problems.
- **Online**
 - If you are presenting an oral presentation online, after log in to Confit, you can enter the oral presentation room (Zoom) from the “Timetable” (Fig. 3).
- Presentation materials such as pre-recorded videos may be played during the session (regardless of the player or the method of playback). It is recommended that a video recording be made and uploaded to the Confit as an “On-demand video” or “additional material”. By doing so, the chairperson can select the relevant material during the session and play/stream the video, without extra work to collect files from the presenter.
- If you are unable to participate in the meeting due to unavoidable circumstances, please contact the conveners using the designated mailing list. The JpGU office will not be able to resolve this matter.
- **【Optional】** On-demand videos and additional materials can be uploaded separately from your oral presentation on-site or online.
 - **On-demand video** (MP4, MOV, WMV, AVI, the maximum size is 250 MB, up to 1 file)
 - ◇ If you wish to use on-demand video, please submit your request using the form below **by (Th) 16 April**.
Form: <https://forms.gle/vDkywzZ6V17Fpy9V6>
 - ◇ You can upload **from (Tu) 21 April**. Instructions and link for uploading will be sent (from noreply.confite@atlas.jp) to on-demand presenters who have already requested by 16 April.
 - ◇ Uploaded materials will be posted on Confit from 15 May (from this date, log in authentication is required to view Confit, so the materials will be available

only to registered attendees) (Fig. 4). Display period will be from 15 May to one month after the meeting end.

- ✧ There is no deadline for uploading and replacing presentation materials, but we recommend that you upload your presentation materials no later than three days before the start of the Meeting (21 May) so that participants can view them before the meeting.
- ✧ Downloading and copying on-demand videos are prohibited.
- ✧ Until the upload is complete, a temporary file titled “No Files have been uploaded” will be posted in the presentation space in Confit.

➤ **Additional Materials** (PDF, JPEG, JPG, PNG, GIF, 10 MB/file, up to 10 files)

- ✧ You can upload **from (F) 15 May**.
- ✧ Log in to Confit and upload your additional materials to your own presentation space (file cabinet) (Fig. 5).
- ✧ If you use movies as additional materials, please upload the created movie to YouTube or other sites and post the URL in the space.
- ✧ Log in to Confit allows for viewing additional materials. Display period will be one month after the meeting end.

b. Poster presentations

- **[Required] Upload poster presentation materials**
 - **Contributors must upload poster materials in their own presentation space on the Confit (※).** The content can be the same as the on-site poster (ex. A0 single image file). Please note that only presenting a poster in the core time on-site or in the online poster session is not sufficient to be formally approved as presented. Please also note that poster presentations entered for the Outstanding Student Presentation Award must be presented on-site.
- **[Optional] On-site poster presentation**
 - Participants who will be presenting posters on-site are requested to display their posters at the on-site venue and make their presentations (The core time will be in PM3(17:15-19:00)). There will be no online broadcast.
 - Only on-site posters will be reviewed for poster presentations entered for the Outstanding Student Presentation Award. Please note that only presentations with on-site poster presentations will be reviewed for OSPA even if an e-poster has been uploaded.
 - The Meeting Organizing Committee is planning to provide an on-site poster display service for those poster presenters who are unable to attend on-site. For on-site poster display service, please send printed posters to the on-site venue (shipping costs are the responsibility of the customer).
- If you are unable to participate in the meeting due to unavoidable circumstances, please contact the conveners using the designated mailing list. The JpGU office will not be able to resolve this matter.
- ※ The following three file formats can be uploaded. One or more of these will be combined to form the poster presentation material. **However, please note that if you upload only additional materials, we may not be able to issue a certificate of presentation.** Please upload e-posters and on-demand videos whenever possible.
 - **e-poster** (JPEG, JPG, PNG, 10 MB/file, up to 100 files)
