11. Precautions

Please confirm the following rules and regulations.

1. General

- The Japan Geoscience Union (JpGU) will be responsible for the overall management of the venue as the administrator, but in principle, exhibitors are responsible for managing their own belongings in your booths and exhibits. JpGU will not be held responsible for any damage, loss, or theft of exhibits.
- No storage space is provided for exhibits. If you have valuables, do not leave your booth unattended. In addition, please take necessary insurance procedures on your own.
- JpGU reserves the right to change or cancel the exhibition period due to natural disasters or other force majeure. JpGU will not compensate for any loss or damage incurred by exhibitors or related parties as a result of such changes or cancellations.
- Exhibitors are prohibited from transferring or exchanging all or part of your booths to others without JpGU's permission.
- Please confirm the designated carry-in/out times and exhibition periods. If you have any unavoidable requests, please contact the JpGU as soon as possible.
- Exhibitors whose exhibits do not meet to the event may be denied entry.

2. Setup and installation

- Direct construction (taping, nailing, scraping, attaching, etc.) on the floor, walls, etc. of the venue is strictly prohibited. Please do not damage or deface the venue, including during carry in/out.
- Ceiling structures are prohibited. The height of exhibits and decorations must be 2.1m or less. If the height is unavoidably exceeded, please consult with the secretariat in advance.
- Please contact Makuhari Messe, Inc. if there are heavy items to be exhibited. The maximum load capacity of the floor is 360kg/m² (contact Makuhari Messe, Inc. for pit areas).
- Plywood, rugs, curtains, etc. used for booth decorations must be fire-retardant. Flameproof items must be labeled with flameproof markings as stipulated in the Fire Prevention Law Enforcement Regulations.
- According to the Chiba City Fire Prevention Ordinance, smoking, the use of naked flames (including appliances with exposed heating elements), and the bringing in and use of hazardous materials are prohibited in the museum (hazardous materials: propane gas, high-pressure gas, gasoline, kerosene, petroleum, gunpowder, etc.). However, if it is unavoidable to bring in such items for demonstration of exhibits, etc., it may be allowed under certain conditions with permission from the Chiba City Fire Department.

- Exhibitors are responsible for taking all waste materials, packing materials, garbage, etc. generated during carry-in, carry-out, and exhibit. Exhibitors who leave residual materials in the venue after the event will be charged a disposal fee.
- No storage space is provided for empty boxes, packing materials, or replenishment products. Please take them home with you or use the area under the desks in your booth.
- If any problems or hazards are found in the construction or decoration of the booth, JpGU and Makuhari Messe, Inc. may request changes to be made.

3. During the exhibition period

- Construction work or exhibits that generate noise, vibration, odor, smoke, etc. that interfere with the management and operation of the venue are prohibited.
- Please adjust the volume of audio/visual equipment in your booth and the volume generated by display equipment so as not to disturb other exhibitors or attendees. If there are complaints on the day of the event, the use of the equipment may be discontinued. *Excessive volume may interfere not only with other exhibitors, but also with simultaneous broadcasts in the event of an emergency or with the operation of the conference.
- It is prohibited to conduct PR activities, etc. in areas beyond the exhibitor's booth, or to place exhibitor's equipment or items in areas other than the exhibitor's booth.
- When it is recognized that there is some obstacle or danger to the operation of the meeting, JpGU and Makuhari Messe, Inc. may ask the exhibitor to make changes to the booth.
